Whelton H., Crowely E., O'Mullane D., Donaldson M., Cronin M., Kelleher V.
Dental caries and enamel fluorosis among the fluoridated population in the Republic of Ireland and non fluoridated population in Northern Ireland in 2002

Mc Donagh et. al.,
Flouridation of drinking water reduces caries prevalence.

Griffin SO, Regnier E, Griffin PM, Huntley V.
Effectiveness of fluoride in preventing caries in adults.

E. Newbrun
Systemic Benefits of Fluoride and Fluoridation

Mahoney G., Slade GD., Kitchener S., Barnett A.
Lifetime fluoridation exposure and dental caries experience in a military population
Community Dent Oral Epidemiol 2008; 485-492.

M. C. Dowener, C. S. Drugan and A. S. Blinkhorn
Dental caries experience of British children in an international context.
Community Dental Health (2005)22, 86-93

A Systematic review of the efficacy and safety of fluoridation
Australian National Health and Medical Research Councill.
8. J. V. Kumar
Is Water Fluoridation Still Necessary?

Griffin SO et a
An economic evaluation of community water fluoridation.
J Public Health Den. 2001; 61 (2) : 78-86.

Spencer AJ, Do LG.
Changing risk factors for fluorosis among South Australian children
Community Dent Oral Epidemiol 2008; 36: 210-218/

Brattal D et al.
Reasons for the caries decline.
What do the experts believe?

Burt et al.
The effects of a break in water fluoridation on the development of dental caries and fluorosis.

Ismail et al
Should the drinking water of Truro, Nova Scotia, be fluoridated? Water fluoridation in the 1990s
Community Dent Oral Epidemiol 1993; 21(3) :118-25

Kalsbeek H. et al
Caries experience of 15–year old children in the Netherlands after discontinuation of water fluoridation.
Caries Res 1993; 27(3) : 201-5

Hong L et al.
Timing of fluoride intake in relation to development of fluorosis on maxillary central incisors.
